

Warranty Statement

Allflight warrants that all items overhauled or repaired will be free from defects in workmanship, materials, replaced parts; and that all items conform to the applicable manuals and/or FAA approved tech data.

All units repaired or overhauled by Allflight will be covered under this warranty policy from the date of the 8130 for the period of months or hours (whichever occurs first) specified below:

Unit	Repair	Overhaul
Windows (electrical items are excluded from warranty)	6 months / 600 hours	12 months / 1200 hours
Interiors (PSU, Galley items, Panels)		
Other		
Structures (flight controls)	12 months / 1200 hours	24 months / 2400 hours
Air Pac (plenums)		
Nacelles (TR's , Inlets, etc.)		

All Allflight-inspected tags carry a 3-month warranty.

Allflight only covers electrical components for 3 months as Allflight does not perform electrical repairs but only inspects/tests. Therefore, it is only covered under inspection.

If a customer has a potential warranty item, they will ship the part to Allflight at the customer's expense. If a warranty claim is approved, Allflight will perform all repairs free of charge and return the unit to the customer at Allflight's expense. Allflight will also have the option of providing a free of charge exchange to the customer at its sole discretion. If Allflight is unable to perform the repairs, or if the unit is BER, Allflight will provide a refund up to, and not to exceed, the total repair charges originally invoiced.

The following **conditions** will result in immediate **denial** of a warranty claim:

- ✗ Unit is received disassembled or broken
- ✗ Improper handling (including shipping)
- ✗ Unit was sent to another repair shop in which the repair shop provided any work, including disassembly

It is Allflight's focus to supply quality parts with quality components, and we will make sure every part is up to that standard and any failure will be corrected.
